

NETFLIX KIDS MODE

AAYUSH DIXIT - INÉS ILLARRAMENDI - MARIA VERONICA SONZINI - XINYU TAN

Hello and welcome to our capstone project,

"Meet the Johnsons—a family of four navigating the chaos of daily life.

You've got two busy parents, Jen and Mike, who are basically professional multitaskers: juggling jobs, dinner prep, and convincing their kids to take a bath.

Every evening, this family dreams of just one thing: a little calm before dinner.

For Jen and Mike, that means giving their kids some screen time.

They turn to Netflix Kids Mode, hoping for something simple, fun, and autonomous.

Spoiler alert: It's not as seamless as they hoped."

THE PROBLEM

PROBLEM

The current Netflix Kids Mode UI is too complex for **younger audiences** to navigate independently, creating stress for both kids and parents.

UI is too cluttered!

I hate this!

Where's Peppa Pig?!

Here's where the parent's dreams of peace meet their ultimate nemesis: Kids Mode.

What should've been a simple, joyful moment turns into a UI nightmare. Stress, tears, and a whole lot of 'Why is this so hard?'

Currently, Kids Mode UI is too complex for younger audiences to navigate independently, creating stress for both kids and parents.

FOR WHO?

WHO ARE WE SOLVING THIS FOR?

KIDS WHO WANT
TO ENJOY THEIR
FAVORITE
CONTENT
WITHOUT HELP

PARENTS WHO EXPECT KIDS
MODE TO PROVIDE AUTONOMY,
SAFETY, AND EASE, GIVING THEM
PEACE OF MIND AND A MUCH-
NEEDED BREAK.

We are solving this for:

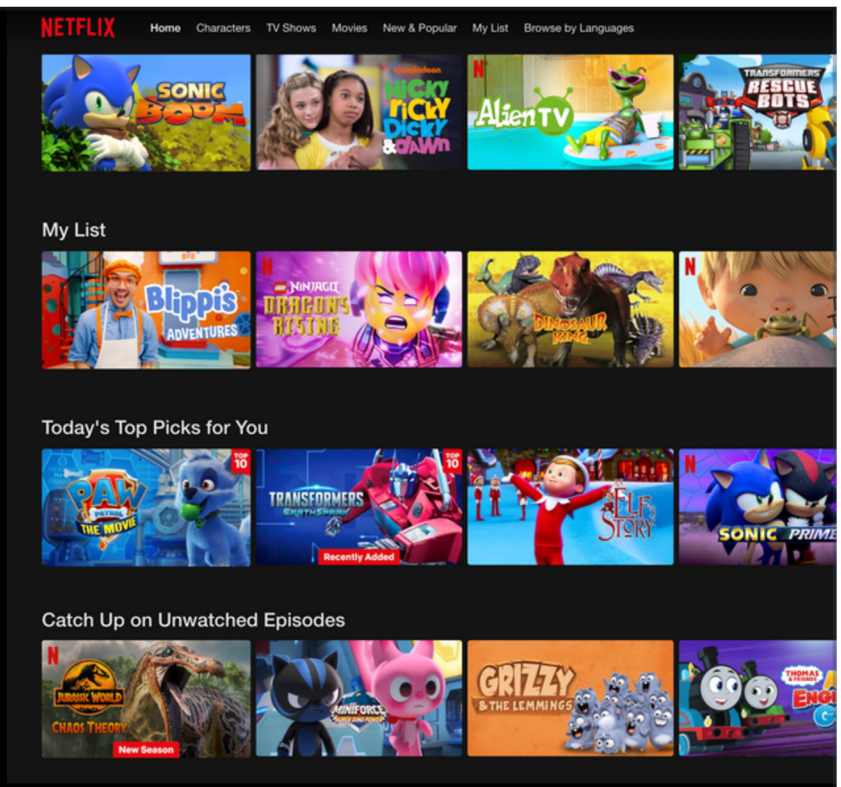

RESEARCH DATA

QUALITATIVE

- Parents express frustration with complex navigation and content overload, requiring constant intervention to help their children find shows.
- Children aged 3-6 report feeling lost and confused within the cluttered UI, often abandoning the platform due to frustration.

QUANTITATIVE

- Low watch-through rates indicate that many children exit Kids Mode after a short time.
- Competitors like Max and YouTube Kids offer streamlined, age-specific experiences, making Netflix Kids Mode's outdated UI an increasing disadvantage in the family streaming market.

Our user research included doing Market Analysis and kids aged 3 to 9 years old. Some of our findings were:

WHY NOW? WHY THIS PROBLEM?

The family streaming market is growing more competitive by the day. Streaming services like Disney+ and YouTube Kids are capturing family engagement with more intuitive and child-friendly interfaces. If Netflix doesn't address these issues, we risk losing ground as parents opt for services that meet their needs better.

Improving Kids Mode for young children (3 - 6 yo) offers dual benefits:

- For Families: Enhances user experience, engagement, and satisfaction, making Netflix a preferred choice for families.
- For Netflix: Addresses a critical retention lever, reducing churn by offering a platform that grows with families and prioritizes intuitive content discovery for young users.

OUR HEROIC SOLUTION: Redesigned Kids Mode

- Age-appropriate
- Simplified
- Reduced frustration
- Enhanced independence
- Intuitive

**Easy and enjoyable navigation for
children aged 3-6**

OUR HEROIC SOLUTION
Redesigned Kids Mode

KEY FEATURES

1 Simplified
Navigation

2 More Visual
Elements,
Less Text

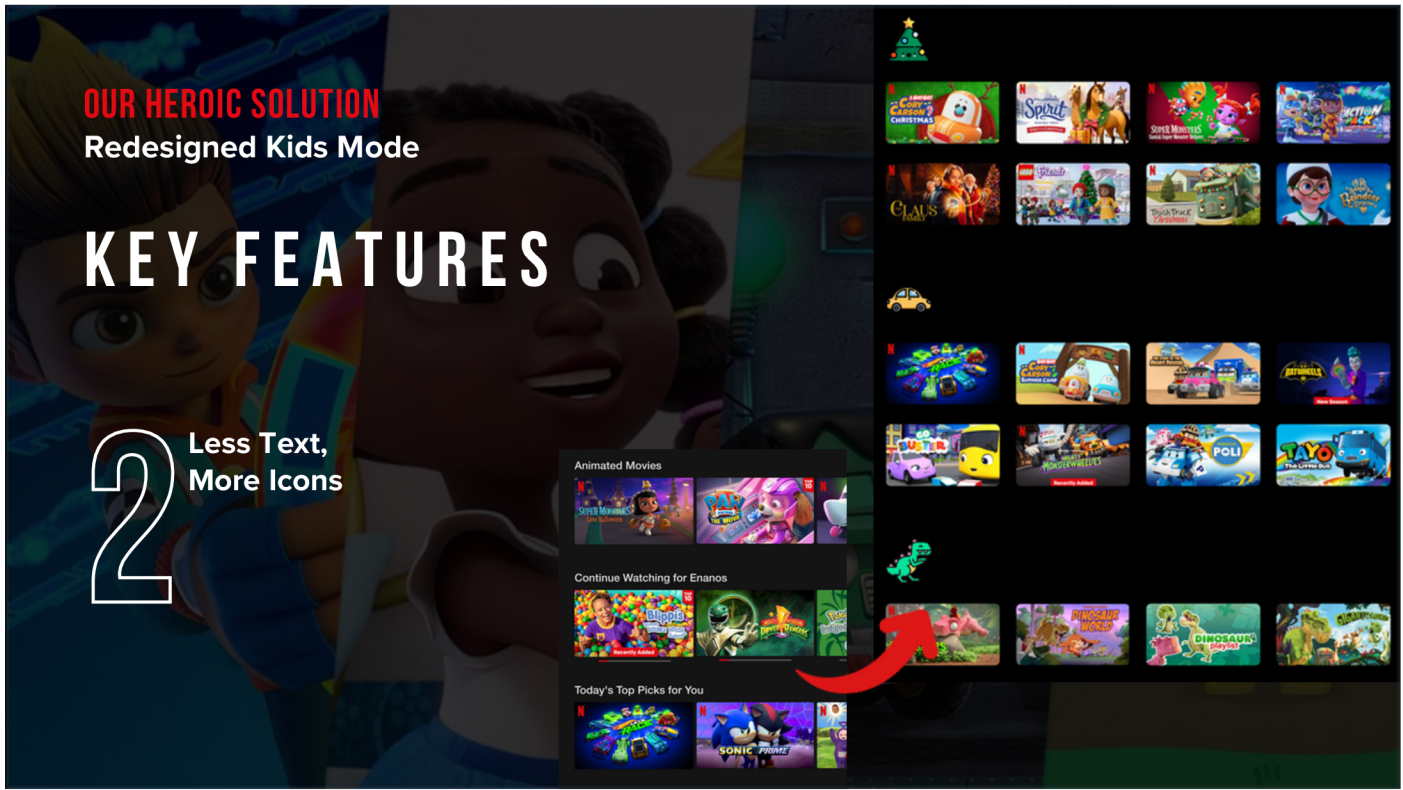

3 Minimal
Choices
Displayed

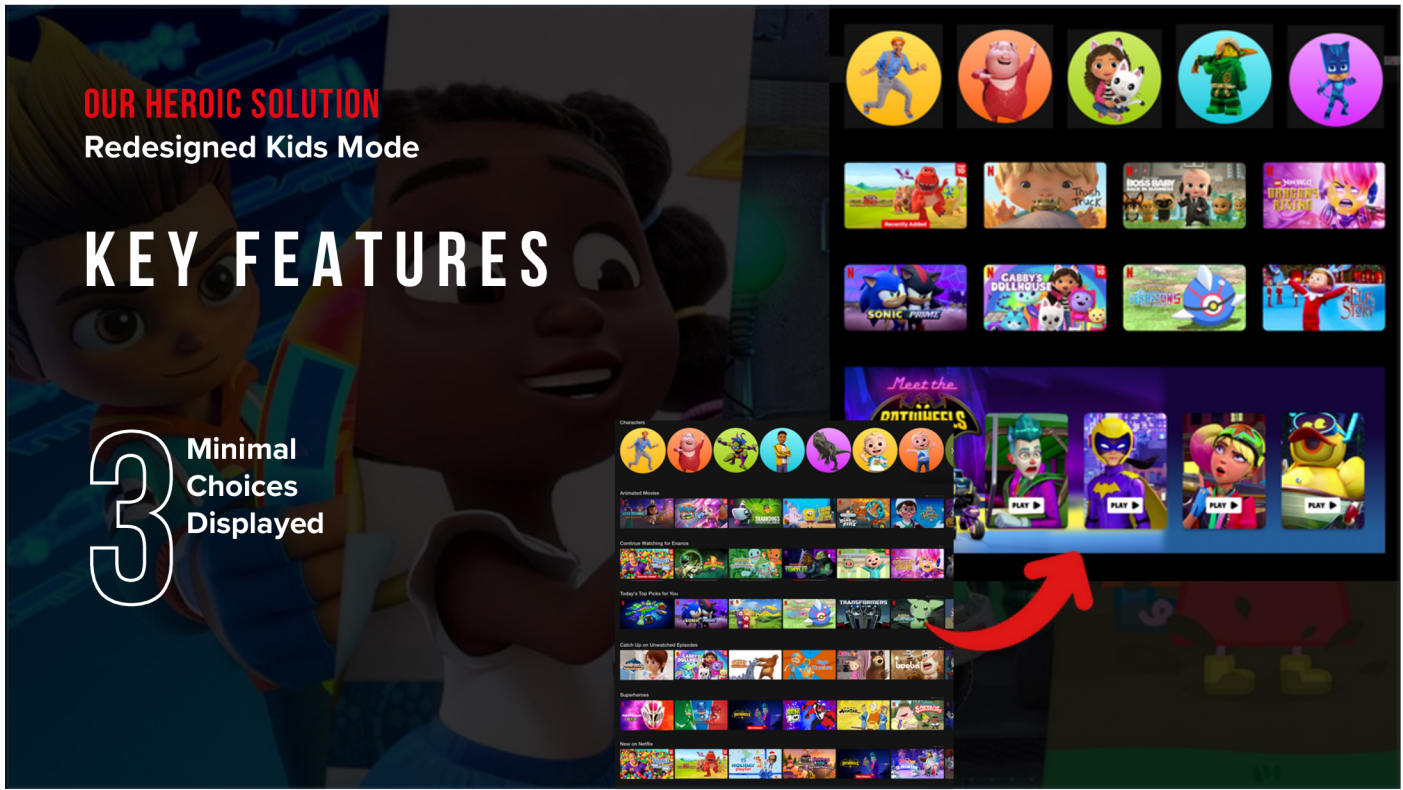

OUR HEROIC SOLUTION
Redesigned Kids Mode

KEY FEATURES

1 Simplified Navigation:

With these carefully crafted changes, we are addressing the very issues that have led to frustration among our users and their families.

OUR HEROIC SOLUTION
Redesigned Kids Mode

KEY METRICS

+DAU/MAU

Increased Engagement

Increase engagement among children 3-6, tracked through DAU/MAU in Kids Mode.

Reduce Bounce Rate

Decrease Kids Mode bounce rate by 20%.

Enhance Parent Satisfaction

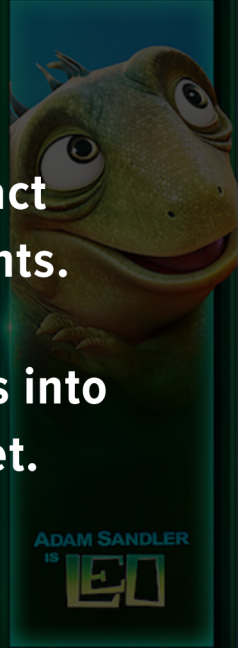

Parent satisfaction score of 4 or higher.

* Within the first 6 months

IMPACT

Measuring qualitative and quantitative impact allows us to exceed the expectations of parents.

Ease, independence, and satisfaction translates into long-term success in this competitive market.

NETFLIX

OUR SOLUTION

HOW WE ARRIVED AT IT

COMPONENTS OF THE SOLUTION

UX ADJUSTMENTS

```
resource_details[id], bruh.  
access == false ) {  
  // Remove the rule as there is currently no need  
  details['access'] = !success;  
  this->_sql->delete( 'acl_rules', $details );  
  // Update the rule with the new access value  
  this->_sql->update( 'acl_rules', array( 'access'  
  $this->rules as $key=>$rule ) {  
    if ( $details['role_id'] == $rule['role_id'] ) {  
      if ( $success == false ) {  
        unset( $this->rules[ $key ] );  
      } else {
```

ENGINEERING

The Netflix logo is displayed in its characteristic red color. The background of the slide is a dark, atmospheric photograph of a forest with tall, thin trees and a misty or foggy atmosphere.

RISK AND MITIGATION

OVERCOMING POTENTIAL SETBACKS

Risk

The redesigned UI might initially feel unfamiliar to existing young users, leading to a temporary learning curve.

Mitigation

We'll include an interactive onboarding guide with friendly visual cues, helping young users quickly adjust to the new navigation. This onboarding will reduce potential friction, guiding users in a way that makes the transition smooth and enjoyable.

MORE INFO

NETFLIX

RETURNING TO OUR FAMILY

Our Goal

NETFLIX becomes the platform families trust and love, where Kids mode supports autonomy, fun, and quality time together.

NETFLIX

OUR VISION

The future of family streaming

Our redesign isn't just a feature update; it's an investment in Netflix's future as the top streaming choice for families. With a simplified, engaging Kids Mode, we're turning Netflix into a space where children and parents alike find joy, independence, and peace.

Let's make Netflix Kids Mode the hero for every family.
